CORBIN DAVIS
CLERK SUPREME COURT

Oct. 29, 2003

Supreme Court Clerk:

The asbestos industry is trying to deprive me of my right to a trial by jury.

This Court Rule #2003-47 I believe is illegal and politicaly motivated

The michigan Constitution as well as our United States Constitution is clear that judges as yourselves are not to make laws but interpret the law. Why would the Michigan Supreme Court even consider changing the law by denying Michigan asbestos disease Victims a right to a trial by jury.

The real crisis in Michigan is the failure of corporations to take responsibility for their bad actions and the willingness of big business & certain Republican Conservative judges to blame the victims instead of holding the

corporations responsible and accountable for their actions.

What are the true facts about asbestos litigation in Michigan? In the last four years, there has been one asbestos case tried to verdict in the entire state of Michigan. All other cases settle before trial.

So I am confident that as you look upon the many facts that are presented to you, the Judges of the Supreme Court of our Great State, you will come to a fair Conclusion.

Very Truly Yours
