Dear Supreme Court,

my name is Ralph J Dzeurecki and I do not think this is right to give these company a freak when they never told us that these asbestos where in the plant. I have work all around these asbestos and nobody even told us. just a few years back they come in with these right to know books. I've even seen company come in and take this asbestos out and do not even rope off the area or even wear protecting protecting mask or suits for these things. I feel it is right for us to get this money, because we where not told this!

CORBIN R. DAVIS
CLERK SUPREME COURT

Thank you
