N 24-03 in regard to Court Rule No. 2003-47

RECEIVED
DEC 1 2003
CORBIN R. DAVIS
CLERK SUPREME COURT

Dear Sers,

I'm writing to let you know I'm against this so called "Court Rule". My Father has asbestos in his lungs which he didn't know he had. He found out 3 years ago when this all starting. He's 88 yrs old he doesn't need this if he can't get money to help him so be it.

a few points to read The Michigan Constitution as well as the United States Constitution makes it clear that Judges are not to make the law but rather interpret the law. Why is the Michigan Supreme Court even considering taking steps that would effectively change the law by denying Michigan asbestos disease victims their rights to a Jury Trial.

also

It seems that Michigan & the Michigan Supreme Court are being used as tools of the Asbestos industry & the big business to deny working people their constitutional rights to Jury trials when harmed by corporate misconduct.

Let the people have the right to a trial for their cases. I remember in high school seeing white 'stuff hangin' in bathrooms & classes it turned out to be asbesto's well it effect all of us kids in a few years the school is gone now. I hear the old VA hospital in Allen Park had asbesto in it so the workers inhaled it for years well you deny them their rights to a trial

I'm tired of big business getting their way what about the little person who's just getting by give us our right

It's hard to see my Father have trouble breathing from this. please do the right thing

and let the little people have their in court or out.

thank you for letting me have my say.

your Truly
Edwin Stanley

P.S. please don't let the big companies tell you what to do
