Re: Proposed Court Rule #2003-47

The Michigan Constitution as well as the United States Constitution makes it clear that judges are not to make the law but rather interpret the law. Why is the Michigan Supreme Court even considering taking steps that would effectively change the law by denying Michigan asbestos disease victims right to a jury trial.

If you lived every day of your life for the past fifteen to twenty years with the damage asbestos has caused you wouldn't even think of a change in the law.

Please, Please stop and think of the number of people hurt by asbestos.
