RECEIVED
NOV 19 2003
CORBIN DAVIS
CLERK SUPREME COURT

Officers of the Court,

I, Osco Williams Sr, am 70 years old. I am writing you regarding Proposed Court Rule No. 2003-47. I worked in the steel mills in the state of Michigan for 33 1/2 years. I retired from McClouth Steel in 1984, since then McClouth went bankrupt. As a result of McClouth going bankrupt, I lost my health insurance and was forced to pay my own. I also lost part of my monthly pension. If this wasn't enough of an injustice; last year, I was diagnosed with asbestosis and told I was a candidate for lung cancer. Now I would like to know why judges & courts would take working

peoples' lawsuits out of court, away from juries to favor Big Business. Are courts really clogged with that many cases? There has only been one asbestos case tried in the state of Michigan.

I have lost everything that I was promised as a working man. Don't deny me my rights to a jury trial in this matter.

Sincerely,

Osco Williams Sr.
