7-24-06

Dear Clerk,

Per the article in the Kalamazoo Gazette, there was questions about Juries producing the right verdict. I was only on one case and it was one that allowed us to discuss the pro & cons. I was not impressed as one of the men, an up and coming business man by the way he was dressed, took over and decided which way we were to vote. I was against that and was told if I didn't go this way we would be there all day or more and really forced me to change my mind. There really should be jury reform.

Wanda Dragacevich
