I am writing concerning Jury System changes.

As a Former jury person, that I have been on.
I very much would like to express my personal opinion.

(1) After hearing all evidence on certain cases pro's + Con.
The Judge will say any information you have heard is to be disregarded on this case which makes me feel I was just a number + am not to give my opinion at all. ?

(2.) You are not to speak to family member of Defended At All.

which I did which was a Huge Mistake because that is why my Son is still in prison because I followed instructions.

Because the Family Member's daughter was the One who approached Me.

+ Told Me that she knew my Son was innocent because of her Fathers record.
So that was the instructions given.

I do believe every person who goes on trail is just a # on the judg's file.

My son sits in prison because he told the truth like he was taught. No tickets No ARRESTS out on his own Recogne No bail. AA
