November 13, 2003

To Whom It May Concern;

As a victim of asbestos disease, I am concerned with Proposed Court Rule No. 2003-47.

If I am unable to have my day in court, I am afraid the big businesses responsible will not be required to take responsibility for their neglect in providing safe working conditions.

I, also, would hate to see Michigan be the last state to protect their residents.

Thank you for your time.

Sincerely,

Leonard C. Barstow
