ADM File Number: 2022-03

Comment:

The court is proposing compelling people to ignore reality; to lie. Despite radical gender theorists' assertions, there are only two genders. Sex and gender are essentially synonymous. Gender is determined by nature, and identified ( NOT assigned) at birth. It is how we are organized for reproduction.

Compelling people to support a person's delusion is neither helpful nor constitutional.

What is a woman? If a woman can be anything, then a woman is nothing.
