Comment:

This rule properly contains some outmoded language, e.g. "broadcast, televise," however, the rule should address social media. As a Circuit Judge, I have had people attempt to LIVE STREAM on facebook and take videos and record audio on other social media applications from my courtroom. The rule should include and be specific that photographing, recording audio or taking video for social media sites is unacceptable. Perhaps you should add, "A judge shall not knowingly allow unauthorized broadcasting, televising, recording, or taking of photographs in or out the courtroom, including the capturing of images, audio or video for dissemination on social media sites such as, but not limited to facebook"
