ADM File Number: 2021-35

Comment:

We are general counsel to the Charter Township of Clinton the largest Township by population in the State with over 100k residents and Macomb Township the third largest with over 90k residents . For 46 years I have dealt with the issue of governmental immunity. The proposed rule will, from my experience, be a return to the past where because the legal question of immunity can't get timely resolved cases of very doubtful merit will be filed and eventually settled due to litigation costs by municipalities wasting taxpayer money and judicial resources. Governmental Immunity a legal question deserves early resolution in the case.
