Comment:

I wish to bring to the Court's attention the impact ADM File No. 2019-40 may have on the availability of visiting judges. I have been asked to serve as a visiting judge in several probate courts over the past few years, including Macomb, Oakland, Wayne, Monroe, Genesee and Kent. I have been able to provide that service remotely. Traveling to most of those counties to hear matters would not be realistic for me. I would be willing to continue to provide that service if I can do so remotely.

In ADM File No. 2024-40 the draft provides a different requirement for former judges taking assignments. I would suggest a similar provision for ADM File No. 2019-40 to assure the availability of former judges to take these assignments.
