STATE OF MICHIGAN
IN THE COURT OF APPEALS

In re Conservatorship of Charlene A. Nutton

Court of Appeals Nos. 379174 / 379634 (Consolidated)

Lower Court No. 2025-425698-CA

Oakland County Probate Court, Hon. Traci Richards

APPELLANT'S NOTICE OF COMPLIANCE WITH FEBRUARY 17, 2026 DEFECT LETTER AND WITHDRAWAL OF PENDING EXTENSION REQUEST

TO: Michigan Court of Appeals, Office of the Clerk
FROM: Susan R. Carré, Appellant, Pro Se
DATE: March 10, 2026

I. NOTICE OF COMPLIANCE — DEFECT CURED

On February 17, 2026, the Court issued a defect letter advising Appellant that the appeal had not been perfected due to the absence of a stenographer's certificate, and that the matter was eligible for involuntary dismissal under MCR 7.217 if the defect was not cured within 21 days. The 21-day deadline falls on March 10, 2026.

Appellant hereby notifies the Court that the defect has been cured. On the evening of March 10, 2026, Phoenix Court Reporting completed production of all three transcripts and her certificate of filing, and transmitted the following notice to Appellant:

"The transcript as well as my certificate of filing has been completed and forwarded to Circuit Court. Not sure what you need to do, however you can contact the Court. Thank you again."

The stenographer's certificate has been filed with the Oakland County Circuit Court. The following transcripts have been produced and delivered:

1. January 14, 2026 hearing — conservatorship petition, stay denial, and protective order (12 pages, including cover and certification)

RECEIVED by MCOA 3/11/2026 12:07:54 AM

2. May 23, 2025 hearing — denial of Appellant's petitions (combined 48 pages)

3. May 16, 2025 hearing — emergency guardianship and conservatorship petitions

The defect identified in the February 17, 2026 letter has been fully cured within the 21-day deadline. Appellant respectfully requests that the default status be cleared and that no costs be assessed.

II. WITHDRAWAL OF PENDING MOTION TO EXTEND DEADLINE

Appellant previously filed a Motion to Extend the deadline to cure the transcript defect, which remains pending before this Court. Because the defect has now been cured within the original 21-day deadline, the extension motion is no longer necessary. Appellant hereby withdraws the pending motion to extend.

III. DILIGENCE

Appellant notes for the record that she pursued the transcripts under financial hardship and pursuant to MCR 2.002, the fee waiver mechanism that became effective January 1, 2025. Appellant contacted Phoenix Court Reporting directly, coordinated production on an expedited basis, and documented her pursuit of the transcripts in a Diligence Notice filed with this Court on March 9, 2026. The transcripts were produced and the certificate filed on the evening of March 10, 2026 — the last day of the 21-day cure period.

IV. RELIEF REQUESTED

Appellant respectfully requests that this Court:

1. Acknowledge receipt of this notice and confirm that the stenographer's certificate defect has been cured;
2. Clear the default status and remove the matter from eligibility for involuntary dismissal under MCR 7.217;
3. Assess no costs, as the defect was cured within the 21-day deadline; and
4. Deem the pending Motion to Extend withdrawn as moot.

RECEIVED by MCOA 3/11/2026 12:07:54 AM

March 10, 2026

Respectfully submitted,

/s/ Susan R. Carré
