The motion for leave to file a reply brief is DENIED and the motion for reconsideration of this Court's June 12, 2026 opinion is GRANTED. In this breach of contract action, this Court vacated the trial court's judgment and remanded this matter for further proceedings. Both parties agree that defendant is entitled to damages for commissions on purchase orders submitted during September 2021 on sales made prior to termination of the agreement but disagree as to the amount owed. In light of the parties' general agreement, and because the Court's June 12, 2026 opinion did not address this issue, we remand with instructions that the trial court revisit the issue of damages. As appellate review would be aided by further explanation, the trial court shall make a comprehensive record on the issues of damages, including any reductions it deems appropriate and the legal basis for those reductions. We retain jurisdiction.
