Comment:

Please accept these comments in opposition to the proposed amendments to Michigan Court Rule 4.201 – ADM File No. 2020-08. These proposed amendments will financially ruin many landlords, most landlords aren't Blackrock were they can afford to wait 3-6 months to hopefully evict a tenant. Majority of the landlords are everyday Michiganders who own one or two properties with mortgages on them. Amendments like these will not only decimate this industry but will drive more people and money away from Michigan.
