Comment:

I am against any changes. The courts are going backwards in forgiving tenants instead of helping landlords get paid. Many landlords are losing properties because of courts not making tenants pay even though in many cases the tenants received money for their rent. This is injustice in action. Judges think the landlords are making big money and in fact some cannot pay their mortgages because the rent is what they depend on. Stop this nonsense. Too much welfare and freebies. The Bible clearly states if we do not work we do not eat. And owe no man anything. Lets get back to justice and stop the handouts except for the elderly and people who REALLY need it.
