Comment:

Does the Supreme not work ake into consideration the slow down process they are going to put into place against Landlords coming to their local court to seek relief from a non paying tenant or a very destructive tenant? Was the fact that we had NO access to justice or assistance during almost 2 years of Covid and lost hundreds of dollars with NO way to recoup our losses.Current mandatory rules require us to wait almost 3 months to remove some one from tenancy..Do the honorable Justices feel the local courts require this much oversite ..have you taken into a court the landlords side of this matter..not all of us are so wealthy that we can cover these losses..I'm asked by the Court to rethink this possible change .
