Comment:

While I do take great pride in caring for all residents, I do not agree with this Amendment for it takes away from residents who do their part. If we do not receive rental payments, then allowing great tenants to live comfortably will not exist. Allowing residents who do not follow the same fair housing rules we give to all will only give them validation that they don't have to. If we must follow all fair housing guidelines, then we should expect for the residents to act and pay accordingly to the lease they sign.
