To whom it may concern: I support the changes to MCR 4.201, the eviction case court rule, that the Supreme Court has proposed. I urge you to adopt these crucial changes. As a tenant in Ann Arbor, I believe that these changes do not go even close to far enough, but they are invaluable in that they provide tenants with more time and information during an unprecedented and unmatched housing shortage. I support the use of remote technology and pre-trials in eviction proceedings. I support MCR 4.201(b)(3)(c) because landlords should be required to follow the law if they want to make use of the court system to evict tenants. Please disregard the large and powerful landlord industry's harmful comments, adopt the proposed changes, and do everything in your power to protect the rights and lives of tenants.
