Comment:

I feel that this new order will cause private landlord to fall into a financial hardship. Some landlords depend on the income from their rental properties to pay their own mortgages. There arent many options in helping HOMEOWNERS. I do not believe there should be additional delays in the court/filing process as the citizens of this country has received several monetary benefits over the course of this pandemic. These stipends , if used correctly, could have caught them up on their past due balances. Think about the PRIVATE LANDLORDS !!
