Comment:

As a renter, I oppose this proposal. I am a SINGLE mother with 2 children. During covid, I had a part-time income, still paid all my bills, and even managed to buy a home. This proposal makes it easier for renters to become delinquent by falling behind which makes it harder to get out of debt. When a renter does not pay, it's the landlords who are stuck with the bill and repercussions. This does not lead to economic stability but rather economic reliability.
