Comment:

Hello Michigan Supreme Court members,

Because you have the power to make court rules that can permanently protect renters in Detroit and all of Michigan, do so! Use your power for good, for protecting renters in Michigan.

One of the proposed rules will automatically stop all evictions for at least 14 days to allow tenants time to apply for rental assistance and up to 30 days if a rental application is approved. Many evictions can be prevented if tenants have enough time to get legal counsel and apply for rental assistance. These rules would be beneficial to tenants, helping keep people housed.

Sincerely,

Martha Kirpes
