Comment:

As a past renter, I see this as a detriment to the community. We as a society need to be held accountable, and if needed, helped PRIOR to becoming delinquent on our housing. Individuals should be given options for assistance, but also be held responsible to take preventative measures. I oppose these amendments and believe they would do more harm than good. Waiting until it's too late doesn't do any good, it rather just passes on the problems to the property owners. Lets prevent these delinquencies through education and accountability!
