Comment:

Dear Michigan Supreme Court,

Please adopt the rule that would make it illegal to arrest or interfere with immigrants going to their regular required appointments at any courthouse in Michigan. Having I.C.E. present can deter people from using the courts and accessing the court process that they need to preserve individual rights for well-being and for public safety.

This would not restrict the federal government's wide power to enforce immigration law because ICE agents would still have ample other opportunities to arrest people if they're no longer allowed to pursue civil arrests in court.

People should feel safe to pursue their cases and have full access to the Michigan's Justice System.

Thank you for your attention,

Joe & Mary Johns
