As an informed American, I am totally in favor of the proposed amendment of MCR 8.115. The amendment would prohibit the civil arrest of a person who is in any courthouse addressing their immigrant status. I feel very strongly about this since my cousin's adult son was "kidnapped" during a routine, annual court visit to maintain his authorized residency in the US. He was adopted as a child from Vietnam over 50 years ago and had been living in the US legally ever since. Weeks ago, he was deported to Vietnam. Adopt MCR 8.115 immediately!!
