JIS Courts:

The end of the year is fast approaching! JIS encourages courts to begin running the caseload report in your application, review the data, and correct any errors to ensure the data is accurate prior to uploading/syncing and verifying the report in MCAP in January.

As a reminder, recordings from previous caseload webinars are available on the [JIS Self-Service portal](#), which you may find helpful when troubleshooting discrepancies on the report.

Questions can be submitted via the [JIS Self-Service portal](#).
