Comment:

I am fully supportive of the proposed rule to prevent federal immigration agents from making civil arrests at Michigan courthouses. It is an outrage that ICE has been assaulting and kidnapping our neighbors who are showing up at courthouses to follow the legal immigration process. ICE's courthouse intimidation makes it too risky for many to attend hearings, interferes with court system, and exposes our residents to potential injustices by not being able to avail themselves of their legal rights. I commend the Michigan Supreme Court for proposing this rule and encourage you to do everything in your power to protect our residents from ICE violence at Michigan courthouses.
