Comment:

I am concerned that anything is required to make this happen or that nothing has been done to date. To kidnap, assault, traffic and worse human beings going thru the nightmare steps required to accommodate a racist, impossible process to remain in a country which abuses and disrespects them, which still is superior to the horror they are escaping and the Court requests ANYONE'S comments?? Why?? It is reprehensible, inhuman and criminal what is happening to these people and EVERYTHING that can be done, MUST BE DONE IMMEDIATELY and supported with total and harsh consequences to everyone who hurts anyone completing any legal process required of them. Please protect the people in Michigan.
