ORDER DENYING RECONSIDERATION

Plaintiff filed a defective complaint on July 21, 2025, and an amended verified complaint on September 9, 2025. The Court provided plaintiff a summons that expired on October 21, 2025. Plaintiff presented no evidence that he served either complaint on defendants. As a result, this action was administratively dismissed on January 5, 2026. A motion for reconsideration may only enter upon a demonstration of "a palpable error by which the court and the parties have been misled and show that a different disposition of the motion must result from correction of the error." MCR 2.119(F)(3). No such error occurred in this matter.

Accordingly, the Court DENIES plaintiff's motion without prejudice to plaintiff filing a new action before this Court.

Date: February 3, 2026
