ORDER REJECTING COMPLAINT

On February 5, 2026, plaintiffs filed a complaint with the Clerk of the Court of Claims. MCL 600.5507(2) provides that "[a] prisoner who brings a civil action or appeals a judgment concerning prison conditions shall, upon commencement of the action or initiation of the appeal, disclose the number of civil actions and appeals that the prisoner has previously initiated." Plaintiffs' complaint indicates only that there are no pending or resolved actions arising out of the same transaction as in the current complaint. This does not meet the statutory requirement. Accordingly, the Court rejects the pleading submitted by plaintiffs without prejudice to plaintiffs filing a new action.

This is a final order.

Date: February 9, 2026
